

Super 5

Hybrid of the 5" and 6" Colonial style, the super five is fast becoming the standard for fascia gutter. The deep profile carries large volumes of water and provides a wider bottom allowing for a full sized outlet. This gutter looks great on boards larger than 2x8 and fulfils the performance without the expense of a commercial size gutter.

Large base allows for full size outlet.
2-3/4" aluminum Flush style for
surface drains and Leaf Trap installations.
or
2-1/2" Vinyl outlet c/w attached strainer.

Hangers - Extruded aluminum spaced 18" o.c.
Fasteners - #10 zinc plated deep thread.
Exposed screws - Stainless Steel
Sealant - One part elastomeric or polyurethane
Coil - .025" aluminum baked enamel finish.
